ASSIGNMENT DAY 3

Peripheral Troubleshooting and Printer
Diagnostics.

TASK 1.

❖ **List 5 common issues users face with USB keyboards or mice on laptops, and write one possible solution for each.**

➤ 5 Common Issues with USB Keyboards or Mice on Laptops and Their Solutions:

 Overview:

- ✓ USB keyboards and mice may face different issues while connecting to a laptop. The table below lists five common problems and one possible solution for each.

<u>S No.</u>	<u>Common Issue</u>	<u>Possible Solution</u>
1	USB keyboard or mouse is not detected.	Reconnect the device or try another USB port.
2	Keyboard keys or mouse buttons are not working.	Clean the device and check for any physical damage.
3	Mouse cursor is not moving properly.	Restart the laptop and reconnect the mouse.
4	USB device disconnects frequently.	Update or reinstall the USB drivers
5	Keyboard or mouse responds slowly.	Restart the laptop and close unnecessary background programs.

TASK 2.

❖ **Simulate a troubleshooting flow: Your Bluetooth headphones are not connecting to your phone. Write the exact step-by-step actions you would take to diagnose and fix the issue, mentioning any settings or indicators you would check.**

➤ Troubleshooting Flow: Bluetooth Headphones Not Connecting to My Phone.

1. Turn on the Bluetooth headphones and check if the LED light is on.
2. Make sure the headphones have enough battery. Charge them if the battery is low.
3. Open Settings → Bluetooth on the phone and make sure Bluetooth is turned On.
4. Check if the headphones are in Pairing Mode. Look for a blinking blue or white LED light.
5. Search for the headphones in the list of available Bluetooth devices.
6. Tap the headphone name and wait for the connection to complete.
7. If the connection fails, remove the old paired device from the Bluetooth list and pair it again.
8. Turn Bluetooth off and on, then restart both the phone and the headphones.
9. Make sure the headphones are not connected to another device nearby.
10. Test the connection by playing music or a video. If it still does not work, reset the headphones and try pairing again.

TASK 3.

❖ **A user reports that their external webcam is not detected during a Zoom call on Windows 10. Write a checklist of 6 things to check or try to resolve the problem, Consider device manager, privacy settings, and app permissions.**

➤ Checklist: Fixing an External Webcam Not Detected in Zoom (Windows 10).

1. Check that the webcam is properly connected to the USB port.
2. Open Device Manager and check if the webcam is listed without any warning sign.
3. Go to Settings → Privacy → Camera and make sure camera access is turned On.
4. Check that Zoom has permission to use the camera in the Windows privacy settings.
5. Open Zoom Settings → Video and select the correct external webcam.
6. Restart the computer. If the webcam is still not detected, update or reinstall the webcam driver and try again.

TASK 4.

❖ **You are helping a friend whose printer is showing 'offline' status on their PC. Describe how you would use the Windows Troubleshooter tool to try to fix the issue, and explain what information the tool provides during the process.**

➤ **Using Windows Troubleshooter to Fix an Offline Printer:**

1. Open Settings → Update & Security → Troubleshoot → Additional Troubleshooters.
2. Select Printer and click Run the Troubleshooter.
3. Choose the printer that is showing the Offline status.
4. The troubleshooter will automatically check for common problems such as printer connection issues, driver errors, print spooler problems, and incorrect printer settings.
5. If a problem is found, Windows may apply the fix automatically or provide suggestions to resolve it.
6. Follow the instructions shown on the screen and restart the printer or computer if required.

 Information Provided by the Troubleshooter:

- ✓ It shows the detected problem.
- ✓ It displays the status of each check being performed.

- ✓ It provides details about the fixes applied or recommendations for further action.
- ✓ It gives a final report showing whether the issue was resolved or not.
